Message

I just wanted to write you about the proposed Atlantic Coast Pipeline. As someone who voted for you in large part because of your promise to protect our water ways and right the wrongs of the previous administrations actions, I implore you to do all in your power to stop this pipeline. This pipeline is set to cross many of our major waterways in the state. As we all know it is a matter of when, not if, these pipelines will leak. Usually this leaks are not small. The Dakota Access Pipeline demonstrated this recently. The many rivers in this state provide lots of recreational opportunities to state residents. These recreational activities lead directly to economic benefit for our state. The health of these rivers and the systems they are a part of are directly tied to their economic impact. The healthier and cleaner we can make our rivers will directly correlate to their economic benefit. Allowing a pipeline to run across these rivers or the lands that make up their watersheds will put at risk all the benefits of a clean environment and economic benefits provided thus to North Carolina. Please keep this pipeline out of North Carolina.

Thank you,

Marc Boettger
